Subject: Microsoft Settlement.

Dear Sir,

I support Microsoft 100%. It's time to end this competitors attack on Microsoft. The competitors are using the government as a tool to achieve their goals. This issue has hurt the U. S. economics and it's time to put it behind us.

Please leave Microsoft alone. They have given more to the consumer than any business in U. S. history.

Please stop being the puppets of lazy competitors.

Thank you,

Steve Overman
